PROFESSIONAL SUMMARY

Ambitious BCA (Artificial Intelligence & Data Science) student at Graphic Era Hill University with a strong academic foundation (CGPA: 8.24/10). Passionate about Artificial Intelligence, Cybersecurity, Data Science, Quantitative Research, and Public Diplomacy. Experienced in student leadership, event coordination, public speaking, and international youth organizations. Continuously developing technical skills through certifications, research programs, hackathons, and global virtual experiences.

EDUCATION

Graphic Era Hill University, Haldwani

Bachelor of Computer Applications (BCA)

Artificial Intelligence & Data Science

Expected Graduation: 2028

Current CGPA (1st Year): 8.24 / 10

TECHNICAL SKILLS

- Python
- Artificial Intelligence Fundamentals
- Data Science Fundamentals
- NumPy
- Pandas
- Matplotlib
- SciPy
- Jupyter Notebook
- VS Code
- Microsoft Fabric (Learning)
- Git & GitHub (Learning)
- Cybersecurity Fundamentals
- Prompt Engineering
- Data Visualization

PROFESSIONAL SKILLS

- Public Speaking
- Leadership
- Communication
- Event Management
- Research
- Creative Writing
- Team Collaboration
- Critical Thinking
- Problem Solving
- Time Management
- Public Diplomacy
- Graphic Design
- Mass Communication

LANGUAGES

- English (Fluent)
- Hindi (Native)
- Bengali (Fluent)

INTERESTS

Artificial Intelligence

Quantitative Research

Cybersecurity

Data Science

Public Diplomacy

Machine Learning

LEADERSHIP EXPERIENCE

- Executive Member**
We Are Empower (WAE)
 - Supported youth leadership initiatives
 - Participated in community development activities
 - Assisted in organizing awareness campaigns
- Secretariat Member**
International Youth Empower Society (IYES)
Department: Media & Mass Communication
- Logistics Coordinator**
College Tech Club
 - Coordinated technical events
 - Managed scheduling and logistics
 - Assisted workshop and seminar execution

CERTIFICATIONS

- HP LIFE – Cybersecurity
- Microsoft Fabric (Learning)
- J.P. Morgan Quantitative Research Virtual Experience (Forage)
- AI & Emerging Technology Certifications
- Additional AI and Technology Certifications

PROJECTS

Natural Gas Price Forecasting

- Developed a Python-based forecasting model.
- Used NumPy, Pandas and Matplotlib for analysis.
- Performed data visualization and prediction.

LeetCode & Data Structures Practice

- Regularly solve algorithmic problems.
- Strengthening problem-solving and programming fundamentals.

ACTIVITIES

- AI Summit Participant – MIET Kumaon University
- Internet Society Member
- BookClub.org Member
- AI & Technology Research Enthusiast
- Public Diplomacy Enthusiast
